

GENERIC SCHEDULE OF TEST RESULTS

DB reference no.		Details of circuits and/or installed equipment vulnerable to damage										
Location												
Z _s at DB (Ω)												
I _{pf} at DB (kA)												
Correct supply polarity confirmed		<input type="checkbox"/>										
Phase sequence confirmed (where appropriate)		<input type="checkbox"/>										
Circuit details												
								Protective device				
Circuit number	Circuit description							BS(EN)	Type	Rating (A)	Breaking capacity (kA)	RCD I _{Δn} (mA)
Test results												
Ring final circuit continuity (Ω)	Continuity (Ω) (R ₁ + R ₂) or R ₂	Test Voltage Insulation Resist	Insulation Resistance (MΩ)	Polarity	Z _s (Ω)	RCD	AFDD	Remarks
